

Melinda Pettigrew, PhD
Anna M. R. Lauder Professor of
Epidemiology
Interim Dean
Yale School of Public Health
DEI in MRSA Clinical Trials

Melinda M. Pettigrew is the Anna M. R. Lauder Professor of Epidemiology in the Department of Epidemiology of Microbial Diseases and the Interim Dean at the Yale School of Public Health. Dr. Pettigrew is an infectious disease epidemiologist whose research focuses on the microbiome and the global health threat of antibiotic resistance. She uses laboratory, population-based, and One Health approaches to identify factors that lead to the selection, emergence, and transmission of antimicrobial resistant bacteria. Dr. Pettigrew's research has been supported by organizations that include the NIAID, NIDCD, the CDC, and private foundations. She serves on the Steering and Executive Committees for the Antibiotic Resistance Leadership Group (ARLG). As the Associate Director of the Scientific Leadership Core, focusing on Diversity, Dr. Pettigrew leads efforts implement and integrate principles of diversity, access, equity, and inclusion throughout the ARLG. She completed a fellowship from the Hedwig van Ameringen Executive Leadership in Academic Medicine (ELAM) Program for Women and was a Public Voices Thought Leaders Fellow. Dr. Pettigrew serves on the editorial board of mBio. She earned her BA in biology from Grinnell College and her Ph.D. in epidemiology from Yale University.
