

Thomas F. Patterson, MD, FACP, FIDSA
Chief, Division of Infectious Diseases
Vice-Chair for Clinical Research
Professor of Medicine
Director, San Antonio Center for Medical Mycology
UT Health San Antonio
Candida auris

Dr. Patterson's clinical and research interests focus on the diagnosis and treatment of fungal diseases. He has been involved in developing new antifungal drugs and in clinical trials of new antifungal compounds and is funded by the NIH and industry for grants and contracts on drug and diagnostic development. He has conducted pre-clinical studies and clinical trials for invasive mycoses. During the COVID-19 pandemic he has led the UTHSA Infectious Diseases efforts in COVID-19 care and clinical research and received the UTHSA Presidential Distinguished Research Scholar award.

Dr. Patterson has published and lectured extensively with over 350 peer reviewed publications, chapters, books and reviews. He has served as member of the American Board of Internal Medicine, Subspecialty Committee for Infectious Diseases and is a Fellow of the American College of Physicians and the Infectious Diseases Society of America, past-President of the Texas Infectious Disease Society, and past-President, International Immunocompromised Host Society.
